NARVA the automotive lighting experts

Our customers come first

At NARVA, customer satisfaction is our number one priority. NARVA delivers high-quality automotive lighting products so that professionals can fully satisfy their customers' needs. With NARVA, garages and shops are able to deliver reliable products and quality service at an affordable price. NARVA has developed a comprehensive product portfolio in order to meet the needs of professionals all around the world. Dedicated NARVA teams and distributors are committed to serving and informing our customers worldwide. We strive to efficiently and effectively meet all customer and market demands in all areas of our business.

Our sales offices, together with a central warehouse, provide attentive customer care and an efficient delivery service.

Dedicated NARVA teams and distributors are committed to providing outstanding customer service in all areas of our business.

Caring for our customers begins with providing a **quality product** at an **affordable price**.

As today's roads become more congested, we believe

it's necessary for all drivers to be able to afford a high-quality and reliable lighting solution for increased safety and visibility. **Quality lighting at an affordable price, now available to everyone.**

Our affordable quality

NARVA products: consistent quality and dependable reliability

- NARVA, 65 years of automotive lighting experience
- Comprehensive testing throughout the entire production process
- Constant quality control of every lamp
- Compliance testing and international certification processes, including ISO/TS 16949, DIN EN ISO 14001, ECE R37, ECE R87
- Ongoing investment in product innovation and new processes

The quality of NARVA products and production processes are regularly controlled. Our products adhere to ECE* regulations and other legal requirements. (See *Which lighting solution do you need* on page 2 to discover all ECE certified lighting products.)

*ECE = Economic Commission for Europe
**ISO = International Organization for Standardization

NARVA production, as well as marketing and logistics processes, are regularly controlled with the help of today's international ISO** engineering standards. The ECE created international guidelines for the automotive industry and its suppliers in order to reduce trade barriers and increase traffic safety. Products that do not conform to ECE regulations cannot be sold in Europe. NARVA products adhere to ECE regulations 37 and 99 that provide guidelines for filament lamps, including measurements, luminous flux and power. The ISO/TS 16949 is our proof of strong integration of safety and stability in our production, marketing and logistics.

For more information about NARVA, please visit our website at www.narva-light.com

Over 65 years of experience and know-how define all NARVA lighting solutions. NARVA performs ongoing tests on its automotive lighting products in order to enhance and assure constant quality. The adherence to all quality tests guarantees the reliability of all NARVA products.

12V Halogen solutions

NARVA is renowned for manufacturing quality lighting solutions that are durable, reliable and provide greater visibility and greater safety in all driving conditions.

Discover our complete range of automotive lighting, including our LED interior lighting.

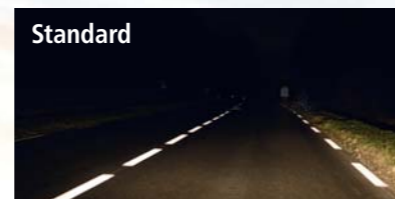

Replacement

Standard

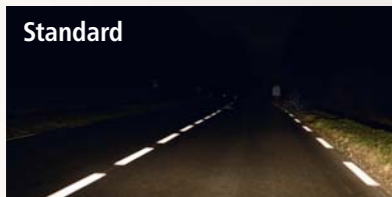

NARVA Standard represents the best value, combining reliability with economy. For drivers seeking the greatest price/performance ratio without sacrificing safety, NARVA Standard is the right choice.

Read more about Standard

Durability

Long Life

Our green range has been specially engineered for long lifetime. Lasting twice as long as standard lamps, these long-lasting lamps will not have to be replaced as often which results in less maintenance combined with a minimal impact on the environment.

Read more about Long Life

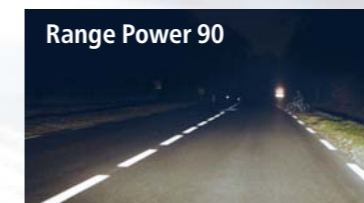

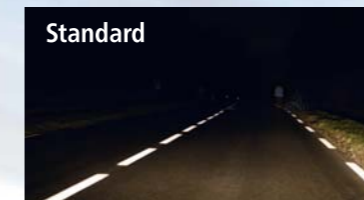

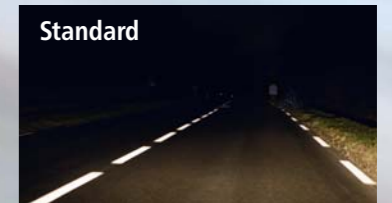

More light

Range Power 50+

Offering 50% more light than a standard lamp, our Range Power 50+ delivers a light beam that is 20 meters longer for even greater visibility. It's engineered for drivers to see farther and more clearly for greater safety while boasting a 2x lifetime.

Read more about Range Power 50+

Range Power 90 New

The new Range Power 90 delivers 70% more light and 20% whiter light for 90% more visibility! The powerful beam allows drivers to see 25 meters farther. A special burner design creates a higher lumen output for increased safety and greater performance.

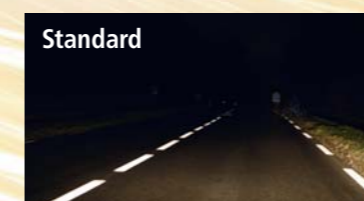

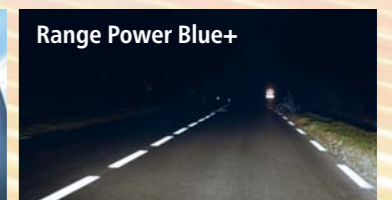

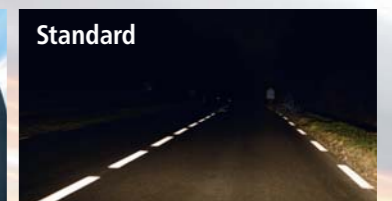

Styling

Range Power Blue+

Offering 50% more light and up to 30% stylish, cooler light, our Range Power Blue+ is engineered for drivers to see farther and more clearly for greater visibility and safety. The stylish blue effect will make any car stand out from the crowd.

Read more about Range Power Blue+

Range Power White*

NARVA Range Power White offers a bright and stylish white light. The stylish xenon effect obtained by the 4 500 K color temperature offers your car an eye-catching look close to daylight. Range Power White is the choice for those who seek to stand out from the crowd.

Read more about Range Power White

*Non-ECE-homologated. Cannot be sold or used in Europe.

12V Headlamps

- The **Standard Replacement** lamp is perfect for drivers seeking to replace a burned out lamp.
- For those looking for a more environmentally friendly lamp, our **Long Life** range offers double lifetime.
- For demanding drivers seeking a high-performance lamp, discover our **Range Power 50+**, featuring 50% more light output for greater visibility, while boasting a double lifetime (compared to ordinary lamps).
- The **new Range Power 90** delivers 70% more light and 20% whiter light for 90% more visibility! The powerful beam allows drivers to see 25 meters farther.
- **NARVA Range Power Blue+** combines a bright white light with a blue effect for stylish performance.

12V LED interior lighting

NARVA LED interior lighting illuminates the car interior with cool white light that lets the passengers read, work or go about their activities without blinding the driver.

The LED interior lamps use less energy while producing more powerful lighting. It's the long-lasting lighting choice for any interior.

LED types

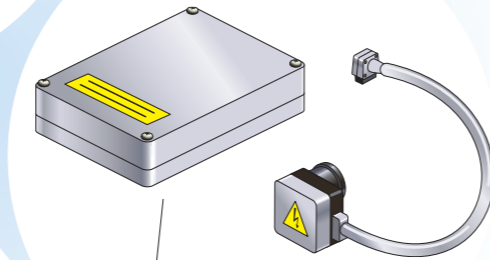

ECE	Ref. No	V	W	Base	Pieces/PU	Packaging
WB T10	18001	12	0.35	W2,1x9,5d	10	B2

Xenon solutions

Producing a brilliant, white light and a precise beam, the NARVA xenon range offers greater visibility for greater safety. NARVA xenon technology means longer lifetime and 3x more light compared to a standard halogen lamp. Featuring a special UV-blocking quartz glass, this lighting solution provides maximum safety by allowing drivers to see even farther.

Understanding xenon lighting systems

Xenon HID (High Intensity Discharge) lamp

Electronic ballast and high-voltage starter

Complex optical system with automatic level control and power-wash system

Main benefits

- Brilliant and powerful light projection on the road
- Light color and intensity close to daylight
- Extra-long lifetime
- Low power consumption
